

## Availability of papers published in the Czech Polar Reports

### Editorial Note

Miloš Barták

*Laboratory of Photosynthetic Processes, Section of Plant Physiology, Department of Experimental Biology, Masaryk University, Kamenice 5, 62500 Brno, Czech Republic*

Since 2011, four issues of the Czech Polar Reports have been published both electronically and in printed version. The papers published in the volumes 1 and 2 have been freely accessible and downloadable on the Czech Polar Reports web site. The same is valid for the forthcoming year and volume 3. Therefore, a reader will be able to download free copies of full papers, short communications and book reviews in 2013 at the following web page: <http://www.sci.muni.cz/CPR/>.

After the Polar Ecology Conference held in České Budějovice in November 2012, there is an increasing interest of international scientists to publish in the Czech Polar Reports (CPR). Therefore, the Editorial Board decided to publish full papers as well as short communications of the authors who participated in the Polar Ecology Conference in two CPR issues. The first part of papers is included in this issue (Vol. 2, No. 2), the other one will form the next issue (Vol. 3, No. 1). To enhance the availability of the papers for a broad scientific community, the above-mentioned CPR issues will be published electronically in a quick succession. The CPR No. 2 (Vol. 2) is going to be published before the end of December, 2012. The next CPR issue (No. 1, Vol. 3) will be published by the end of January, 2013. Please find below a list of the authors contributing to the two issues as well as shortened titles of their papers.

#### *Vol. 2, No. 2, 2012*

Kavan, J.:  
[Polar Ecology Conference 2012](#)  
 Smykla, J. et al.:  
[Antarctic Tardigrada](#)  
 Kosobryukhov, A. et al.:  
[Photosynthesis in \*Plantago\*](#)  
 Golovatin, M.G. et al.:  
[Nenets and overgrazing](#)  
 Mašová, Š., Kašparová, E.:  
[Report on fish diversity at P. G. Channel](#)  
 Markovskaya, L. et al.:  
[Pigments in Arctic plants](#)  
 Sonina, A.:  
[Coastal epilithic lichens](#)  
 Witoszová, D., Láška, K.:  
[Air temperature at Svalbard](#)

#### *Vol. 3, No. 1, 2013*

Stacke et al.:  
[Svalbard landscape changes](#)  
 Pushkareva, K., Elster, J.:  
[Biodiversity of soil crust](#)  
 Balarinová, K. et al.:  
[Trebouxia growth optimum](#)  
 Svoboda, J.:  
[Arctic plant hardiness](#)  
 Sergienko, I.:  
[Coastal wetland of Arctic](#)  
 Bohuslavová, O. et al.:  
[Environment of Antarctic mesas](#)  
 Ektova, S.N., Morozova, L.M.:  
[Lichen tundra recovery](#)  
 Morozova, L.M., Ektova, S.N.:  
[Salt marsh vegetation](#)  
 Malygina, N. et al.:  
[Reindeer in the Taymyr](#)
