BOTANICAL GARDEN of FACULTY of SCIENCE, MASARYK UNIVERSITY

The Botanical Garden of Faculty of Science, Masaryk University in Brno was founded in 1922 by Professor Josef Podpěra. The garden has continued to grow and develop since that time. In 1995–96 during the reconstruction of the garden, new greenhouses were built. Today, we have a collection of about 4000 taxa: 1850 taxa in greenhouses and 2200 taxa outdoors.

The outdoor plant collection includes the special part Plant System (0.3 ha), where the big variety of species is shown by the particular plant families. Approximately 1500 species of vascular plants from 85 families are grown here.

Other parts of garden include samples of South Moravian vegetation and flora. You can see there for example vegetation of alluvian meadows and forests, oak and oak-hornbeam forests, non-forest xerothermophilous vegetation on limestone, serpentine or loess vegetation, submontane beech and spruce forests and sand dune flora. The area of this part is 0.4 ha.

In the other parts of the garden, you can admire trees and shrubs from the temperate zone of Japan and China, Caucasus and Siberia, or vegetation from the Balkans and the Mediterranean region. The rockeries contain montane and subalpine species from the high mountains of Europe and North America.

The greenhouses are a system of five tunnel-like structures with the largest one situated in the middle (max. height 10.5 m, area 1.200 m²). The greenhouses contain tropical collection of plants, together with *Victoria cruziana*, collection of ferns and cycads, subtropical collection with evergreen shrubs and trees, also with *Wollemia nobilis*, collections of *Bromeliaceae*, *Cactaceae* and other succulents.

The Botanical Garden is open daily from 9 a.m. to 5 p.m., only to 3 p.m. in winter. The entrance fee is only for greenhouses.

SEED COLLECTORS

Mgr. Magdaléna Chytrá (head), Ing. Anna Novotná (botanist), Mgr. Deana Láníková, Ph.D. (botanist), Ing. Jana Jandová (greenhouse), Ing. Hana Ondrušková (garden architect)

NOMENCLATURE

1. Kaplan Z., Danihelka J., Chrtek J. jun., Kirschner J., Kubát K., Štech M. & Štěpánek J. [eds.] (2019): Klíč ke květeně České republiky [Key to the flora of the Czech Republic]. Ed. 2. – Academia, Praha.
2. Plants of the World online, Kew Science, available at <http://www.plantsoftheworldonline.org/>.

CONDITIONS

In response to the Convention of Biological Diversity (Rio de Janeiro 1992), the seeds are offered for the use in the fields of research, education and development of public botanical gardens. The commercialization of the seeds, adult plants or their genetic material is strictly forbidden. Every scientific publication resulting of the use of this material has to mention the Botanical Garden of Faculty of Science, Masaryk University in Brno in the acknowledgments.

We are an IPEN Member, code BRNU. Ordering seeds, you agree to comply with the above conditions. We are registered on CZ 003 Register of scientific institutions entitled to the exemption provided by Article VII, paragraph 6, of the Convention www.cites.org/common/reg/si/si-CZ.pdf. We send plant seeds to EU countries only.

GEOGRAPHIC AND CLIMATIC INFORMATION

Botanical Garden is located near the Brno city centre at approximately 240 m a. s. l. Its coordinates are 49°12'15" (latitude) and 16°35'50" (longitude). Information on annual precipitation from 2002 to 2023 and mean monthly and annual temperature and rainfall from 1961 to 2022 can be found in enclosed climographs.

Rainfall in the garden from 2002 to 2023 in mm.

Brno Tuřany 1961-2022

225 m n. m., 501 mm, 9.4 °C

Mean monthly and annual temperature and rainfall from 1961 to 2022.

DESIDERATA 2023-2024

BOTANICAL GARDEN
FACULTY OF SCIENCE
MASARYK UNIVERSITY
Kotlářská 2

GROSSULARIACEAE

637. *Ribes cereum* US-0-BRNU-2020-07877
US; Madison Buffalo Jump; 45°47'38''N, 111°27'35''W

HELICONIACEAE

638. *Heliconia stricta* G XX-0-BRNU-2018-07185

HIPPOCASTANACEAE

639. *Aesculus hippocastanum* XX-0-BRNU-2017-06323

640. *Aesculus parviflora* XX-0-BRNU-2017-06325

HYACINTHACEAE

641. *Muscari azureum* XX-0-BRNU-2017-00955

642. *Muscari comosum* XX-0-BRNU-2017-00952

643. *Muscari neglectum* XX-0-BRNU-2017-00953

644. *Ornithogalum nutans* XX-0-BRNU-2017-00963

645. *Puschkinia scilloides* XX-0-BRNU-2017-00976

646. *Scilla pratensis* XX-0-BRNU-2017-01005

HYPERICACEAE

647. *Hypericum androsaemum* XX-0-BRNU-2017-04003

648. *Hypericum bithynicum* GE-0-BONN-18510

GE; region Guria, a road between the towns Ascana and Bakhmaro

649. *Hypericum hirsutum* XX-0-BRNU-2017-04006

650. *Hypericum maculatum* CZ-0-BRNU-2018-07313

CZ; district Jindřichův Hradec, municipality Lovětín, 300 m SE from the railway; 49°12'24''N, 15°03'18''E

651. *Hypericum montanum* XX-0-BRNU-2020-07878

652. *Hypericum olympicum* XX-0-BRNU-2017-04010

653.	Hypericum orientale	XX-0-BRNU-2017-04012
654.	Hypericum patulum	XX-0-BRNU-2017-04013
655.	Hypericum perforatum	XX-0-BRNU-2017-04015

IRIDACEAE

656.	Gladiolus imbricatus	XX-0-BRNU-2017-04037
657.	Iris bucharica	XX-0-BRNU-2017-04045
658.	Iris domestica	XX-0-BRNU-2017-04047
659.	Iris ensata 'Aoigata'	XX-0-BRNU-2017-04049
660.	Iris graminea	XX-0-BRNU-2017-04052
661.	Iris halophilla	XX-0-BRNU-2017-07164
662.	Iris pseudacorus CZ; district Hodonín, municipality Dubňany, Jarohněvický fishpond; 48°55'18''N, 17°03'36''E	CZ-0-BRNU-2016-04057
663.	Iris sibirica	XX-0-BRNU-2017-04064
664.	Iris sintenisii	XX-0-BRNU-2017-04066
665.	Iris spuria	XX-0-BRNU-2017-04068
666.	Iris spuria subsp. musulmanica	XX-0-BRNU-2017-04070
667.	Iris variegata	XX-0-BRNU-2017-04072
668.	Sisyrinchium striatum	XX-0-BRNU-2017-04075

JUNCACEAE

669.	Juncus articulatus	XX-0-BRNU-2017-04081
670.	Juncus compressus	XX-0-BRNU-2017-04082
671.	Juncus effusus	XX-0-BRNU-2017-04084
672.	Juncus gerardi	XX-0-BRNU-2021-08300
673.	Juncus inflexus	XX-0-BRNU-2018-07309
674.	Luzula alpina	AT-0-GZU-10295-10

675.	Luzula luzuloides	XX-0-BRNU-2017-04091
676.	Luzula multiflora	XX-0-BRNU-2017-04092
677.	Luzula nivea	XX-0-BRNU-2017-04093
678.	Luzula sylvatica	XX-0-BRNU-2017-04094

JUNCAGINACEAE

679.	Triglochin maritima	AT-0-WU-0025885
------	----------------------------	-----------------

LAMIACEAE

680.	Agastache nepetoides	XX-0-BRNU-2017-04101
681.	Ajuga chamaepitys	XX-0-BRNU-2017-04102
682.	Ajuga reptans	XX-0-BRNU-2017-04103
683.	Ballota nigra	XX-0-BRNU-2017-04110
684.	Betonica officinalis	XX-0-BRNU-2017-04111
685.	Calamintha nepeta subsp. nepeta	XX-0-BRNU-2021-08420
686.	Callicarpa japonica	XX-0-BRNU-2017-04122
687.	Caryopteris ×clandonensis	XX-0-BRNU-2017-04123
688.	Clerodendrum bungei	XX-0-BRNU-2017-04128
689.	Clerodendrum speciosissimum G	XX-0-BRNU-2017-04129
690.	Clinopodium nepeta	XX-0-BRNU-2017-04131
691.	Clinopodium vulgare	XX-0-BRNU-2017-04133
692.	Dracocephalum grandiflorum	XX-0-BRNU-2017-04137
693.	Dracocephalum renati	XX-0-BRNU-2017-04134
694.	Dracocephalum ruyschiana	XX-0-BRNU-2017-04135
695.	Elsholtzia ciliata	XX-0-BRNU-2021-08293
696.	Galeobdolon argentatum	XX-0-BRNU-2017-04141
697.	Galeobdolon luteum	XX-0-BRNU-2017-04143

698. Galeobdolon montanum	XX-0-BRNU-2017-04140
699. Galeopsis angustifolia AT; region Tennengau, village Kuchl, railway station, crushed rock, 460 m asl; 47°37'42''N, 13°08'28''E	AT-0-SZU-2019-298
700. Galeopsis bifida PL; Przemyśl County, region Pogórze Dynowskie, Lipowica hill, ex BG Bolestraszczyk	PL-0-BRNU-2020-07904
701. Galeopsis segetum DE; district Heidekreis, town Neuenkirchen bei Soltau	DE-0-NGOET-1767
702. Glechoma hederacea	XX-0-BRNU-2017-04150
703. Hyssopus officinalis	XX-0-BRNU-2017-04152
